

What is Child Sex Trafficking?

As stated in the Federal Trafficking Victims Protection Act, child sex trafficking includes the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting a child under 18 years of age for the purpose of a commercial sex act. A minor is not able to consent to being bought or sold.

It is the responsibility of the community to identify possible indicators of child sex trafficking. The public shouldn't rely on the potential victim for disclosure. Since traffickers and buyers use refined recruitment tactics, manipulation, and threats, the exploited youth are often unable to immediately disclose or recognize their own victimization.

Indicators of Child Sex Trafficking*
